## DAYTON WENT DOWN HILL AT FAST RATE

Middlebury Man Says for  
Five Years Everything  
Just Went Wrong.

"I certainly am glad to be able to get off a rigid diet, and eat anything I want," said Earl Dayton, 29 South St., Middlebury, Vt., in relating his experience with Tanlac.

"For four years, I had to eat sparingly, but no matter how careful I was I suffered a great deal of distress after every meal. Finally I lost my appetite and began to go down hill at a rapid rate, as everything seemed to be wrong with me.

"Tanlac has made me feel like a new man. I am in better health than in years and feel good clean to my finger tips. I believe Tanlac is the only medicine ever made that does more than is claimed for it."

TANLAC is sold in St. Johnsbury by Landry's Drug Store, in St. Johnsbury Center by W. F. Poirer, in West Barnet by Ritchie & Warden.—Advertisement.

## WINTER SPORTS IN SWITZERLAND

Largest Rink In Europe  
and Bob Sleighs  
Everywhere

Switzerland, that mecca of the devotee of winter sport, is again calling its thousands to the health-giving rush and thrill of its skating, tobogganing, curling and skiing. The little republic has hosts of winter citizens who, in other seasons, owe allegiance to all varied countries of the earth. During the war other thousands, among them many Americans, convalesced there, to remain forever in thrall to the magic of its wintertime.

And the colors of the women's costumes! A cerise hued sweater, a cerise cap, a green skirt and a bright yellow scarf, not to forget cerise colored sport hose. This is one of the absolutely correct combinations of Swiss winter days, and it is strikingly beautiful in the setting of a fernine and silver of the Swiss Alps.

Now think of a skating rink measuring 40,000 square yards, where every recognized form of ice sport is seen at its best! This wonder rink, the largest in Europe, is at Davos, in the Grisons, and is the favorite meeting place of the international champions and virtuoso skaters.

Mountain lakes have been transformed into huge racing arenas, where Europe's champions compete in a variety of contests. Lovers of bob-sleighing have unsurpassed opportunities for this

sport in Switzerland, and every place is making efforts to beat all others with longer and more ingeniously constructed runs. No matter whether one happens to sojourn in the Jura, in the Valais, along the Montreux-Bernese Oberland line, in the Bernese Oberland proper, in Central Switzerland, or in the Grison Highlands, tobogganing and bob-sleighing and excursions by sleigh are always such delightful pastimes that outdoor enthusiasts travel thousands of miles in order to enjoy them at their best.

Skiing, too, has its thrills! And every lover of the sport, if he visits the land of the Alps in winter, makes it a point to learn skiing. Upon attaining a certain proficiency in this sport, which requires but a few days, the unique charm of the season of white, with its magic influence on body and mind, fills one with a happiness and well-being, that words cannot describe.

## New Savings Certificates at St. J. Post Office

Postmaster Gleason announces that he has received the new series of Treasury Savings Certificates which have been adopted by the United States Treasury Department. They are issued in three units of \$25, \$100 and \$1000 maturity value. The first bears the portrait of Theodore Roosevelt, the second the portrait of George Washington, and the third the

portrait of Abraham Lincoln. Postmaster Gleason will be glad to supply any of his patrons with these certificates, or will give them detailed information as to the conditions under which they are sold.

The United States Treasury Department, keeping in mind the welfare of the people from an economic standpoint, will furnish these certificates at prices which will net the investor 4 1/2 per cent compounded semi-annually. They mature in five years from the date of issue and are sold at the following prices:

\$20. for the \$25. maturity value Certificate.

\$80. for the \$100. maturity value Certificate.

\$800. for the \$1000. maturity value Certificate.

There is provision made, at guaranteed values, for the redemption of these certificates before maturity if desired, in which case the holder receives interest at about 3 1/2 per cent on his investment.

The certificates are registered by the United States Treasury Department, and are therefore loss-proof, burglar proof and fire-proof.
